PLEASE DON'T SHIP MY DAD'S JOB OVERSEAS

- AT&T earned \$19.4 billion in profits in 2018 and received a \$21 billion tax cut thanks to the Tax Cut and Jobs Act.
- AT&T CEO Randall Stephenson promised to create jobs with AT&T's tax windfall, but instead AT&T has cut over 23,000 jobs since the tax cut went into effect in 2018.
- AT&T's corporate greed means more layoffs and our jobs in many local communities are being sent to low wage and overseas contractors.
- Write to your members of Congress and tell them that our community needs good jobs. Ask them to investigate AT&T to find out why the company continues to outsource our jobs.
